# Krishiv Malhotra

## Experience

**Jul 2022 – Dec 2022**

Research Intern • Grey Films, India

- Contributed as research intern for documentaries that shed light on the hidden lives of tigers and donkeys,
- Researched on human's impact on tigers via mining and deforestation resulting in various human-tiger conflicts.
- Also, researched on donkey's contribution in human life cycle. Studied on comparison & benefits of donkey's milk to that of cow.

**Jul 2022 – Aug 2022**

Intern • Tiger Watch, India

- Explored the forests by foot, to track movement of large predatory animals such as tigers, and wolves by locating pug marks, scratch marks on trees. It also involved the use of equipment such as camera traps and radio callers.
- Studied the male tiger T-115 of his habitat, movement patterns, change in behaviors on sensing tigress T-102 in his territory.
- Created conservation awareness posters for 40 schools having 10,000 students in the Ranthambore area.
- Gained insights by imbibing the living experience of humans in villages surrounded by wildlife.

**Dec 2021 – Dec 2022**

Volunteer • Father John Animal House

- Interacted with dogs, cats, puppies & kittens in the animal shelter.
- Ensuring safe interaction and helping animals learn non-threatening human presence for healthy co-existence.
- Studied tagging mechanism of animals, and its impact to safety of volunteers around respective animals.

## **Others**

- Participated in multiple birding day trips with NJ Audubon.
